

Time Is Running Out To Save Pisgah Hill

A Community Resource Like No Other

Join your friends and neighbors currently supporting this outstanding local and regional opportunity.

The **Pisgah Hill Conservation Project** will:

- ◆ Conserve over 200 acres of prime wildlife habitat
- ◆ Provide traditional recreational opportunities (hunting, fishing, hiking, skiing)
- ◆ Expand the trail network of the Bradbury Mountain to Pineland Corridor
- ◆ Be a community asset for future generations
- ◆ Support the New Gloucester Comprehensive Plan

- ◆ Be an open classroom for students interested in biology, ecology and conservation
- ◆ Permanently protect one of New Gloucester's highest points of land and a piece of local history, an old granite quarry

Only \$47,000 to go

The Royal River Conservation Trust, your local land trust, has pledged to match every dollar raised locally with \$4 they raise from grants and foundations. For example, the Land for Maine's Future Program has pledged \$266,000 toward this project. These funds will go back to the State of Maine unless we can raise the necessary local match.

This is a unique opportunity - we can't miss this chance! After August 15th, the Royal River Conservation Trust's options to acquire the two largest project parcels will expire, so please make a tax-deductible donation now!

For more information go to www.rrct.org or contact Pisgah Hill Campaign Committee Chair, Mark Power at 926-4876 or 409-6292 (cell)
